- Teamwork

PROFESSIONAL SUMMARY

Dynamic and detail-oriented Frontend Developer with expertise in JavaScript and React.js, skilled in crafting scalable and visually appealing web applications. Proficient in responsive design and integration of frontend components with APIs. Adept at leveraging Generative AI and mastering new technologies swiftly to enhance development processes.

PROJECTS

Modeza | 🌐 | 🐙

JavaScript | React | Git | HTML5 | CSS3 |

Responsive Web Design

- Collaborated with designers to create a visually appealing and interactive user interface for Modeza using React.js.
- Developed reusable and scalable components, ensuring optimal performance across various devices and browsers.
- Implemented secure user authentication and product management features with CRUD operations.
- Integrated advanced filtering, search, and dynamic routing, enhancing user navigation and experience.
- Utilized Tailwind CSS for a mobile-responsive UI, optimizing the website for both desktop and mobile devices.
- Ensured seamless integration with backend APIs, facilitating efficient data exchange and interaction.
- Conducted thorough testing and debugging to maintain high reliability and stability of the platform.
- Leveraged Git for version control, maintaining collaborative and efficient development workflows.
